## PRECISTA® Ultra Fine Probes

Precision stainless steel dental type probes. These single ended probes are ideal for SMT and other micro assembly applications. Points are made of hardened stainless steel for long life. A must for dense boards and hard to reach areas. Overall length 5".

- 330A **Straight**
- 330B **Angle**
- 330C **Curved**
- 330D **Hook**

## LS-101 Lavender Stick

A new twist to your wooden probe. We added our Ergonomic soft foam cushion grip to the very popular orange stick. The cushion grip makes it easy to hold and manipulate when working on leads and wires.

## 227C-ET Ergonomic Handle and Probe

Soft foam cushion, static safe handle with a straight .010 microprobe tip.

## 227A-ET Ergonomic Handle Only
