

Excelta Optics Magnifiers, Eye Loupes and Screwdrivers

Eye Loupes

Used for magnification in assembly or inspection. Made with sturdy, lightweight frames, and color-coded rings for easy identification.

How to select the proper eye loupe

The higher the magnification (X):

- A. The smaller the field of vision
- B. The smaller the lense diameter
- C. The shorter the working distance

Standard Loupes

Ref. No.	Power	Focal Length	Color Code
207A	2 3/4	3 1/2"	Yellow & White
207B	3 1/4	3"	Yellow
207C	4	2 1/2"	Blue & White
207D	5	2"	Blue
207E	6 1/2	1 1/2"	Red & White
207F	10	1"	Red

Deluxe Loupes

Ref. No.	Power	Focal Length	Color Code
208	6 1/2	1 1/2"	Red & White
209	10	1"	Red

401
